Network 4 puzzle answers

1 group pic - You get one point for this correct answer

C

2

Gears - You get one point for each correct answer -maximum 2 points

(a) B

(b) D

3

Holes - You get one point for each correct answer -maximum 3 points

(a) B

(b) D

(c) A

4

IF/THEN - You get one point for each correct answer -maximum 2 points

(a)

(e) E

6

W&M -You get one point for each correct answer -maximum 3 points

(a) B

(b) D

(c) E

7

True', 'False' or 'not enough data to know' -You get one point for each correct answer -maximum 8 points

(a) The answer to all questions (A, B, C, D, E, F, G, H) is 'not enough data to know'.

This may surprise you, but here are the facts:

1 We don't know the population of Meritica. 1000 people might be all of it, or a tiny fraction of it, or a particular group (we don't know who did the survey, or who answered it). We don't know what the whole population believes -we don't even know what those surveyed believe -we only know what those surveyed SAID.

2 We don't know the crime rates in Meritica -we only know the numbers of crimes reported. If the Meriticans have smart criminals or a dumb security force, most crime could go undetected and unreported. 'Crime figures' cannot give rates of crime or even rates of criminals caught. For all we know, none of them were caught!

(b) You get one point for each correct answer -maximum 5 points

A false

B not enough data to know

C true

D not enough data to know

E false

(c) You get one point for each correct answer -maximum 5 points

A not enough data to know

B not enough data to know

C false

D true

E not enough data to know

8 Best fit You get one point for each correct answer
-maximum 3 points

(a) D

(b) C

(c) B
